

Compass Point Quilts

As part of our topic work, we have been learning about compasses in our geography lessons and how they can be used for finding direction. We have learnt that there are four main points on a compass: North, East, South and West.

In our Art lesson, we learned how native American women used the compass point design to make colourful quilts. Often, these quilts told a story or journey!

Our collaborative piece of art

We created our own compass point quilt design. We each painted 3 different compass points, mixing paints to create different shades. We then cut them out and overlapped them to create our own unique patterns. When displayed together, it makes a beautiful compass point quilt design!
