

# Stone Age to Iron Age Workshop

To celebrate our hard work in the last half-term whilst learning about prehistoric Britain, we arranged for a special guest to visit us with fantastic prehistory activities for us to take part in.

- We were able to look at some replicated artefacts and guess which time period they were from.
- There were some typical prehistoric clothes for us to try on. We thought they were really warm!
- We were able to have a go at digging artefacts out of sand using archaeologist tools!
- We even got to have a go at pressing our own Iron Age coin!

Year 3 behaved fantastically, and our visitor was very impressed with our knowledge!  
Well done Year 3!
