

## Year 2 Village Walk

We have been learning about where (in our huge world) Woodstone is. After locating our world, continent, country, county and village using different maps, we looked more closely at the village of Ravenstone. We used an aerial photograph of the school to create a sketch map of the school grounds. Then we looked at a road map of the village and had a go at creating different routes which included 5 key stops: The park, church, football club, post office and village hall.

Today, we walked around the village, tracking our route on a map. When we returned to school, we created a sketch map of the village including a key of the 5 stops. All the children were very sensible and demonstrated an excellent knowledge of road safety.

Well done Year 2!
