

Today, we took part in a 'Zoom' workshop all about **Air Pollution**. We heard about the causes of it and what we, as humans, can do to help reduce it and its effect on the world. The children listened well then thought carefully about the key lessons they had learned. I hope they enjoy telling you all about it so we can all do our bit to ensure their children, grandchildren and pets can enjoy the beauty of this wonderful world as we do now.

'Pollution can make us very poorly and even kill us.' Sophie L

'The trees give off oxygen, which helps humans and animals to breathe.' Joseph

'You should walk or bike to school as often as you can.' Cohan

'Diesel and petrol cars give out lots of carbon monoxide that pollutes the air.' Rosie

'When you are smaller, you are more likely to breathe in polluted gases because they are heavy and stay low in the air.'

Marcy

'When you walk to school, make sure that there are no cars coming when you want to cross the road.' Elsie

'Leaving the engine running in traffic means that pollution is still filling the air even though the car is not moving.' Payton

'If you can, choose a route to school that keeps you away from the roads and the pollution around them.' Luca

'Drive electric cars that use electric created from renewable sources not fossil fuels.' Theo

'Always cross the road at a safe place, never between parked cars or on the corner of a road.' Josh C

'Follow the 'Green Cross Code' when crossing the roads.' Isla
