

Year 4 - Monday 30th March

### Weekly Spellings

expansion

extension

comprehension

tension

corrosion

supervision

conclusion

persuasion

Practise for about  
10 minutes.

### English

Watch the video on the life of Jacques Cousteau (Jacques Cousteau - The Inventor of Scuba Diving - Simply Scuba)

<https://www.youtube.com/watch?v=Vrak04MISGY>

Watch it once then watch it again and keep pausing it to write notes (not full sentences) about his life and achievements. You do not need to write everything - just the main points.

### Maths

Starter - We do not always have to use a written method for addition, even when we are adding BIG numbers! Solve these additions in your heads (mentally) writing the answers in your book.  $4863 + 1004$ ,  $9281 + 1000$ ,  $2116 + 3800$ ,  $5060 + 3429$ ,  $7005 + 2032$  and  $6300 + 2184$ .

Main - 4 digit vertical addition

Complete the page from Abacus on the Home Learning tab. Do the odd numbered questions from the top and the 2 words problems.

Extension (optional) - try the Think.

The answer sheet (page 60) is on the Home Learning tab.

### P.E.

Do more circuit training activities or follow an online workout such as Joe Wicks. Search P.E. with Joe on YouTube.

<https://www.youtube.com/thebodycoachtv>

### Reading

Read for 20 minutes. Write 4 questions with the answer from what you read. Don't forget to punctuate your questions with a capital letter and question mark.

### R.E.

Read the PowerPoint "The Beatitudes" on the Home Learning tab.

In your book, choose one of the Beatitudes and EITHER write a short story OR draw a cartoon style picture with speech bubbles showing someone behaving in the correct way. Choose carefully - some are easier than others to understand!
