

Spellings

(practise these in your neatest, joined handwriting)

gem	jacket
giant	jar
magic	jog
giraffe	join
energy	adjust

How many of your spellings can you include in one sentence?

Hello Year 2! I'm so impressed with how hard you are working at home! I hope you enjoyed learning about Louis Braille and Helen Keller yesterday.
Here are your tasks for Wednesday
Miss Clement ☺

Science - our sense of touch

Yesterday we learnt how important our sense of touch is, especially for people who have lost their sense of sight. Today we are going to use our sense of touch to explore our gardens. Our skin helps us to feel things, although today we will mainly use our hands. On the next slide there are lots of different 'texture' words - texture means the way something feels. Can you find at least one example of each different texture in the plants in your garden? For example, the bark of a tree might feel smooth but the waxy leaves of a plant might feel smooth. Make sure you do this activity with an adult and wash your hands afterwards. Record your findings into your home learning book.

English

Hopefully you had chance to write your story about your fictional character and their home schooling experiences yesterday. Today we are going to write this in neat into our own miniature book just like Axel Scheffler.

Watch this video which explains how to make a miniature book

<https://youtu.be/gZJwoJvgNxs>

Follow the instructions to make your own then write your story into it. You might like to add some illustrations to your book too. I would love to see your finished work so please email it to me!

Maths

First, practise your measuring skills and warm up your brain with the measuring game

<https://www.topmarks.co.uk/maths-games/measuring-in-cm>

Then we are working on Summer Term - Week 4 w/c 11th May focusing on Lesson 3 - 'Subtract 2-digit numbers' today. Remember the worksheets and answer sheets are no longer freely available to download from the White Rose website so these will be uploaded onto the home learning page as separate documents. You can find the video lesson here:

<https://whiterosemaths.com/homelearning/year-2/>

If you can't find all
these textures in your
garden, try to imagine
which different plants
or trees might feel
this way

bumpy

soft

fuzzy

prickly

hard

smooth

rough

bendy
