

Spellings

(please practise these in your handwriting book)

hiking	shiny
hiked	being
hiker	shining
nicer	scary
nicest	scaring

How quickly can you write out all of then ten spellings correctly?

Hello Year 2! I hope you all had a lovely weekend and enjoyed the sunny weather! Keep working hard this week and remember to keep sending your work to me too. Here are your tasks for Monday

Miss Clement ☺

Maths

This week we are focusing on fractions using the White Rose Maths online lessons. Have a go at Week 1 lesson 1 here <https://whiterosemaths.com/homelearning/year-2/> which focuses on making equal parts. Watch the video and pause it along the way to have a go at the activities - you will find these on the 'get the activity' tab to the right of the video. Don't worry if you can't print off the sheet - answer what questions you can into your home learning book and answer the rest verbally. If you would like to mark your work the answers are on the same page.

Science

Last week we started our new 'Wriggle and Crawl' topic and found lots of different insects on our minibeast hunt.

Today we are focusing on insect microhabitats. Lots of different insects will live in your garden but in different microhabitats that they are adapted to.

Have a think about the different microhabitats in your garden (or elsewhere in the village) and list them.

These could be 'under logs', 'on leaves', 'on flowers' and 'in the soil'. Then, draw a table in your home learning book and look closely at these different microhabitats. See what different sorts of insects live in each microhabitat and list them in your table.

English

This week in English we are focusing on riddles. You might remember we wrote some riddles about different fruits during our 'Muck, Mess and Mixtures' topic. Have a look at the riddles on the next slide and see if you can match them to the correct insect. Then, choose an insect you would like to write about and research it. You will need to collect lots of facts about your insect ready to write your riddle tomorrow. This website might help you

<https://www.dkfindout.com/uk/animals-and-nature/insects/>

Read aloud to an adult for at least 10 minutes. Focus on the 'prediction' questions from your VIPERS question stems today.

Riddle of the day

I am always on the dinner table but you don't get to eat me - what am I?

Think of the day

What is happiness?

I live in a colony. I will eat almost anything. I help plants by tunneling in the soil and I help move seeds from one place to another. What am I?

ant

I pollinate flowers and am beautiful to watch. There are four stages in my life cycle: egg, larva, pupa, and adult. I have brightly colored wings. What am I?

butterfly

I like to hang out near the water. I eat hundreds of mosquitoes each day. I catch my prey with my feet. What am I?

dragonfly
