

Day 6 - Monday 30<sup>th</sup> March 2020

Happy Monday Fab 5s! I hope you had a great weekend and that you and your family are all still well. Here are your tasks and challenges to begin week 2. Read them carefully and try your best with each one. **Remain a proud learner!**

Subject	Task	
Maths	Basic Skills 2	
English	1. Groovy Grammar sheet 4 2. Write about your weekend. Include things such as what you did, who you did it with, your favourite part of the weekend, anything new or something you tried for the first time, etc.	
Science	In your book, list all the different types of materials that objects are made from (eg wood, plastic, glass, fabric, etc). Then, look around your house and write down the different objects that are made from each of the materials on your list. Find as many objects as you can for each material. Next, create a bar chart in your book to show the number of objects that each material is used for. Think carefully about the scale on your bar chart so that everything fits clearly on to it. Finally, write 4 questions about the data on your bar chart (eg which material is used for making the most objects?) and then ask someone else in the house to answer them. Happy investigating!	
Physical	Create a fitness circuit in the garden. Make sure that you include at least one exercise for every part of your body. Ensure that you and everything in the garden stays safe and undamaged though!	Join in with the Joe Wicks 9.00am School Workout on YouTube. Everyone's doing it!
Challenge	Time to help with the chores around the house again ... although I hope that you're doing this already!	

Good luck, enjoy and stay safe!
