# Handprint Chicken With Chicks

## Supplies

- White, orange, red, yellow and green paint
- Blue card
- Black, red, orange and green felt tips
- Paint brushes
- Paint pots

1 Use your finger dipped in green paint to print a line of grass along the bottom of the card.

4 Paint your index finger with yellow paint and print just above each thumbprints to create the chick's heads.

2 Use white paint to print a handprint with the fingers facing upwards and thumb on the left just above the grass line. Then leave to dry.

5 Add a few overlapping fingerprints in yellow and red in the middle of the palm print to create a wing for the chicken, leave to dry.

3 Paint your thumb with yellow paint, then print three or four thumbprints spread out along the grass. This will create the body for the chicks.

6 Draw eyes and beaks on the chicks using a black felt pen.

7 Using red and orange felt pens draw a comb on the hen as well as eyes and a beak.
