Mark it on the world map below.

4. What type of volcano is your volcano? (cinder cone, shield, or composite)
A stratovolcano
5. What is the altitude of your volcano? (How high is your volcano?) 3676m (12,660ft)
6. Name three features of your volcano. Since 1818 at least 55 eruptions have been recorded.
7. What is its condition? (dormant, active, extinct) active
8. When was its most recent eruption? 1st + 0n the 4th December 2021

As part of our 'Tremors' topic, Year 3 have been learning about Volcanoes. We've been learning how to effectively use the internet as a research tool, so we went online and found some fantastic facts about the Earth's largest volcanoes. Did you know that Mauna Loa in Hawaii has been erupting for 700,000 years?!

Volcanic Research
