

Date:

Thursday 26th August 2021

Learning Objective:

To explore, describe and classify everyday materials.

Science

To begin our Muck, Mess and Mixture topic, we had a 'messy mixtures' morning. We felt a variety of weird and wonderful mixtures using our hands and then worked as a group to choose appropriate words to describe them. We used an online dictionary to find the meaning of words we were unsure of. We then enjoyed guessing which mixture was being described when reading out the lists of words randomly.
