

# The U.K.

## Year 3 Curriculum Map Summer Term 2

In **English** during this topic, we'll be:

- Writing our own exciting dilemma stories
- Developing a leaflet about our local areas

In **Maths**, we'll continue to develop our understanding of:

- How to read the time
- Properties of 2D and 3D shapes
- Measuring mass and capacity

In **Science**, we'll continue learning about animals, including humans. We'll discuss the differences in diets between different species and the importance of nutrition. Also, we'll learning about how to perform fair experiments.

In **Geography**, we'll be learning about the different counties and countries located in the U.K., as well as our local area.

During our **Art** lessons, we'll be learning about digital media, and creating our own piece of digital artwork.

In **French**, we'll continue with the 'Our School' topic. We'll be learning new vocabulary and phrases related to the theme of school.

During our **ICT** lessons, we'll be learning about digital simulations, as well as developing our own digital artwork in a pop art style.

In **Music**, we'll be learning about the different genres of music. We'll be listening to and appreciating the aspects of different types of music.

In **PE**, we will develop our coordination whilst learning about the different sports in Athletics. We'll also be having some fun whilst playing Kick Rounders!

In **PSHE**, we'll be learning about healthy lifestyles and body image along with sex education.
